Source image to generate this illustration was a microscopy picture of oligodendrocytes cocultured with T cells. Houses and roads illustrate interconnected oligodendrocytes and each illumination matches T cell contact with oligodendrocytes. From Jamann H, Desu HL, Cui Q-L, et al. ALCAM on human oligodendrocytes mediates CD4 T cell adhesion. *Brain*. 2024; 147(1):147-162.
