

# European Heart Journal Supplements

Volume 25 Supplement G November 2023

A new era of physiologic cardiac pacing <i>H. Burri and P. Vijayaraman</i>	<b>G1</b>
Conduction system pacing: overview, definitions, and nomenclature <i>M. Jastrzebski, G. Dandamudi, H. Burri, and K.A. Ellenbogen</i>	<b>G4</b>
Implant, assessment, and management of conduction system pacing <i>K. Vernooy, D. Keene, and P. Vijayaraman</i>	<b>G15</b>
Frontiers in conduction system pacing: treatment of long PR in patients with heart failure <i>N. Kaza, D. Keene, P. Vijayaraman, and Z. Whinnett</i>	<b>G27</b>
Personalized accelerated physiologic pacing <i>M. Meyer, M. Infeld, N. Habel, and D. Lustgarten</i>	<b>G33</b>
Alternative atrial pacing site to improve cardiac function: focus on Bachmann's bundle pacing <i>E.M. Cronin, N. Vedage, and C.W. Israel</i>	<b>G44</b>
Role of conduction system pacing in ablate and pace strategies for atrial fibrillation <i>R. Tung and H. Burri</i>	<b>G56</b>
