

European Heart Journal Supplements

Volume 25 Supplement I December 2023

Editorial <i>N. Mangner, J. Møller, H. Thiele, and F. Pappalardo</i>	11
Recognizing patients as candidates for temporary mechanical circulatory support along the spectrum of cardiogenic shock <i>A. Montisci, V. Panoulas, A. Chieffo, C. Skurk, A. Schäfer, N. Werner, L. Baldetti, N. D'Ettore, and F. Pappalardo</i>	13
From medical therapy to mechanical support: strategies for device selection and implantation techniques <i>L.F. Bertoldi, A. Montisci, D. Westermann, M. Iannaccone, V. Panoulas, N. Werner, and N. Mangner</i>	111
Timing and treatment strategies according to SCAI classification in cardiogenic shock <i>G. Tarantini, G. Masiero, H. Thiele, M. Iannaccone, B. Schrage, C. Hassager, F. Woitek, A. Chieffo, and J.E. Møller</i>	119
Monitoring MCS patients on the intensive care unit: integrating haemodynamic assessment, laboratory data, and imaging techniques for timely detection of deterioration and recovery <i>C. Vandenbriele, L. Baldetti, A. Beneduce, J. Belohlavek, C. Hassager, M. Pieri, A. Polzin, A.M. Scandroglio, and J.E. Møller</i>	124
Differential utilization of Impella devices, extracorporeal membrane oxygenation, and combined therapies as escalation and de-escalation strategies <i>A.M. Bernhardt, E. Potapov, C. Vandenbriele, C. Skurk, L.F. Bertoldi, and F. Pappalardo</i>	132
From escalation to weaning strategies: how to integrate the ECMELLA concept <i>B. Schrage, A. Bernhardt, E. Potapov, L.F. Bertoldi, and N. Mangner</i>	139
Glimpse into the future <i>J.E. Moller, N. Mangner, F. Pappalardo, and H. Thiele</i>	144
