Esophagus

- 63 Diagnostic Accuracy of Timed Barium Esophagram for Achalasia**
WWW *O. Z. Fass, J. E. Pandolfino, J. M. Schauer, N. Ganesh, D. A. Farina, A. Lat, E. Goudie, L. C. Kelahan, and D. A. Carlson*

Timed barium esophagram can accurately identify achalasia when interpreted using a multi-metric classification tree model. It offers a standardized approach that outperforms traditional methods relying solely on barium column height.

Small Bowel

- 73 Electroacupuncture Reduces Duration of Postoperative Ileus After Laparoscopic Gastrectomy for Gastric Cancer: A Multicenter Randomized Trial**
WWW COV *L. Pei, G. Wang, S. Yang, S. Zhou, T. Xu, J. Zhou, W. Zhang, K. Lu, L. Hu, Y. Wang, K. Wang, D. You, Y. Wu, L. Li, J. Guo, and J. Sun*

Electroacupuncture was superior to sham electroacupuncture and standard care only in shortening postoperative ileus duration and improving the quality of life of patients undergoing laparoscopic gastrectomy for gastric cancer.

Inflammatory Bowel Disease

85 Capsule Endoscopy–Guided Proactive Treat-to-Target Versus Continued Standard Care in Patients With Quiescent Crohn's Disease: A Randomized Controlled Trial

S. Ben-Horin, A. Lahat, B. Ungar, O. Ukashi, D. Yablecovitch, M. M. Amitai, Y. Haberman, L. Selinger, A. Talan-Asher, O. Kriger-Sharabi, T. Naftali, Y. Ron, H. Yanai, I. Dotan, U. Kopylov, and R. Eliakim, for the Israeli IBD Research Nucleus (IIRN)

See editorial on page 21.

Optimizing medical treatment in patients with asymptomatic Crohn's disease, who are found by capsule endoscopy to still have active intestinal inflammation, can significantly reduce the risk of future disease flares.

Functional GI Disease

94 Mebeverine and the Influence of Labeling in Adolescents With Irritable Bowel Syndrome or Functional Abdominal Pain Not Otherwise Specified: A 2 × 2 Randomized, Placebo-Controlled Trial

R. Rexwinkel, N. K. Vermeijden, J. Zeevenhooven, J. Kelder, M. Groeneweg, T. Hummel, J. Goede, P. Hurkmans, J. Stapelbroek, M. Benninga, and A. Vlieger

See editorial on page 23.

Mebeverine is not effective in treating irritable bowel syndrome and functional abdominal pain in children, but treatment effects are improved when children believe they received an active drug, highlighting the impact of expectations.

Intestinal Inflammation

104 Psychological Stress-Induced Local Immune Response to Food Antigens Increases Pain Signaling Across the Gut in Mice

J. Aguilera-Lizarraga, C. Lopez-Lopez, J. Jaramillo-Polanco, M. V. Florens, Y. Yu, Q. K. Tsang, A. Chakraborty, S. De Gand, F. Pia, R. Quan, M. Cuende-Estévez, S. Van Remoortel, J. Strid, A. E. Lomax, M. Cecilia Berin, A. W. Craig, E. Kaufmann, M. L. Ormiston, S. J. Vanner, H. Hussein, G. E. Boeckstaens, and D. E. Reed

This study reveals that psychological stress can provoke the immune system to respond aberrantly to certain foods, resulting in meal-induced abdominal pain.

119 Mucosal Macrophages Govern Intestinal Regeneration in Response to Injury

I. Moraitis, J. Taelman, B. Arozamena, L. Mularoni, O. Wienskowska, X. Sanjuan Garriga, L. Arregui, M. Stefanovic, I. Modolell Farré, F. Guedea, M. Diaz, and J. Guir

Macrophages regulate the recovery from radiation-induced enteritis by promoting intestinal stem cell regeneration, suggesting potential therapeutic targets to improve the quality of life for cancer patients.

Hepatobiliary

136 The Impact of Hepatitis B Surface Antigen Reduction via Small Interfering RNA Treatment on Natural and Vaccine (BR11-179)-Induced Hepatitis B Virus-Specific Humoral and Cellular Immune Responses

Y. Ji, N. Le Bert, G. Lai-Hung Wong, M. W. Douglas, A. Lee, C. Zhu, B. Wang, J. Lv, D. Li, Y. Tan, H. Ma, J. Chen, X. Chen, Q. Zhu, M.-F. Yuen, and A. Bertoletti

The immune response in chronic hepatitis B virus patients receiving a combination of the therapeutic vaccine BR11-179 and siRNA elebsiran was characterized, and improved humoral immunity and enhanced Pre-S1/Pre-S2-specific cluster of differentiation 4-positive T-cell responses were detected.
