### Research

#### PRELIMINARY COMMUNICATION

**204 A Clinical Diagnostic Test for Calcium Release Deficiency Syndrome**  
M Ni and Coauthors

Case-control study including individual cases of calcium release deficiency syndrome (CRDS), 3 patient control groups, and genetic mouse models assesses the cardiac repolarization response on an electrocardiogram after brief tachycardia and a pause as a clinical diagnostic test for CRDS.

#### RESEARCH LETTER

**251 Lowering Fecal Immunochemical Test Positivity Threshold vs Multitarget Stool RNA Testing for Colorectal Cancer Screening**

T Niedermaier and Coauthors

This analysis uses data from 2 studies to explore whether lowering the threshold for fecal immunochemical test positivity can achieve comparable levels of sensitivity and specificity as multitarget stool RNA testing for colorectal cancer screening.

**252 Use of a Financial Incentive Code for In-Home COVID-19 Vaccination of Homebound Older Adults**

RM Zimbroff and Coauthors

This study evaluated the uptake of Healthcare Common Procedure Coding System code MO201 after initial implementation to inform future policy related to in-home preventive care.

#### A PIECE OF MY MIND

**197 Questioning the Impossible**

R Gallant

In this narrative medicine essay, a pediatric oncologist gains new insight into the decision to transition from cancer-directed therapy to comfort-focused care when roles are reversed and she experiences end-of-life decision-making as a caregiver.
